

J.HARVEST & FROST

Our mission is to bring passion and aesthetics to your workday Harvest & Frost is built on the belief that aesthetics, quality design and precision craftsmanship play fundamental parts in our lives. In other words – we believe in order to thrive and find our passion while we work - we need to surround ourselves with things which inspire and encourage us.

WE ARE SHIRTMAKERS

We are a work shirt brand for men and women - and in order to succeed in our mission, and become "fuel for your passion", we offer well-made, detailed and affordable work shirts of the highest quality. We aim to be that undefinable, yet powerful, intangible asset which aesthetics represents in your workday. Harvest & Frost was established in 2014 as a result of a collaboration between two brands – James Harvest Sportswear, rooted in U.S. college fashion with worldwide distribution and Frost, with its focus on tailored, well-cut garments in a small scale. Two excellent concepts brought together in one brand.

We started on a journey to develop our lines of high quality work shirts for men and women.

To be there with you – everyday - at the workshop, the office or at the pub – we set out to develop a collection of shirts which would meet the needs of those occasion. Quality, roughness, durability became our lodestars.

We found inspiration in early 20th century fashion, as well as books, movies, brands and classic designers. We were determined to create something unique – but still at affordable prices. We wanted to make each garment something we would've loved to wear ourselves.

NEVER DONE

Still, people's expectations and needs changes, so we realize, with delight, that our pursuit for that perfect work shirt will be never-ending and we'll continue our journey and search for the best fit, materials, details, stitches and techniques.

Making these products demands a holistic view on design, and we recognize that aesthetics are more than visual beauty. We live by the rule that quality design is the sum of three inseparable variables; excellent craftsmanship, the best materials and integrity.

So, while we're on our quest to give you that little bit of extra beauty in you workday – rest assured – we have got your back. Work hard – and put all your energy into your own dreams. We'll make sure you're always dressed for the occasion.

Making the finer wear work

- From the office to the dinner party

BLACK BOW

THE ULTIMATE IRON FREE SHIRT WITH REVOLUTIONARY SPILL PROTECTION, AND PROBABLY THE LAST GREAT SHIRT YOU'LL EVER NEED. SAY GOODBYE TO IRONING, UNTIMELY COFFEE SPILLS AND BUSINESS LUNCH STAINS. THANKS TO ADVANCED NANOTEX TECHNOLOGY, THE BLACK BOW HAS YOUR BACK. BLACK BOW IS SET OUT TO BE THE WORLD'S BEST WORKING SHIRT.YOUR NOW ABLE TO TEST IT IN ITS NATURAL ENVIRONMENT - YOUR LIFE.

SPLIT YOKE

The construction of the yoke involves splitting the yoke, rotating the parts in the correct angle and sowing them back together. This allows the fabric a bit more stretch which gives you improved freedom of movement and a better fit. We also added mechanical stretch in the material to make it comfortable to look this sharp.

NEVER IRON

Everybody knows about Non Iron. Sometimes it's true and sometimes, not so much. We already have Non-Iron on most of our shirts, and we are confident that you have tried it and found it to be one of the ones that works. We were not content. There is still some room for improvement, said Tor Bjarne... Which of course there was. Enter; Never Iron. Life is bigger than creases.

A Never Iron shirt stays crisp through out the day, due to the taped seams and the wrinkle resist treatment. The activator for the Never Iron function is however moisture. So it needs to get damp or wet to straiten out the small amount of creases accumulated during the use of the shirt.

ELASTIC COLLAR BUTTON

In the strive to make the worlds best working shirt, Tor Bjarne made a pledge to himself. Before retiring he would make a patented solution to the problem many (including himself) has. Closing the top button in the collar, is for some very uncomfortable or even impossible. This should be possible to amend.

We have taken the first step in that direction. The top collar button is fastened with elastic tread instead of the traditional one. This makes room for extra movement and is therefore.

more comfortable when wearing. A small, but important, step towards our big aim at making the finer wear work.

NANO TECHNOLOGY.

Beside our regular acclaimed style and finish, we went further into the construction of the fabric. We went far into the fabric. We enhanced the fibres on a molecular level, maintaining the feel and look of the cotton, but made it more resistant towards liquids and oils. Both from the outside and the inside. So if you spill, or get a nervous sweat attack, minutes before your big meeting, you still look like a million bucks. Brush it of and nail that presentation.

Nothing beats the clean look of a solid dress shirt.

But even at a solid color there are still some features that make our shirt stand out from the crowd. The shirt is crafted in our favorite high performance twill texture. This gives the perfect sheen to it, results in a substantial good hand feeling and makes it less transparent than similar white dress shirts.

A split yoke in back, medium cut-away collar and a 35 mm. raised placket set the edge for this sharp, but classic shirt.

The Bedford micro-cord structure in solid color gives the shirt class, and are well recommended for either business or a bit less formal occasions.

The fabric is well known for us, and is aiming to be one of our top 3 classics.

This time we added our new natural mechanical stretch performance to it. It allows the fabric to hold top grade non-iron performance, and ads greater movement with up to 12 % stretch the weft way.

It has the look of a classic woven dress shirt, but indeed it is a knitted shirt. Combining the best from two worlds, makes this the world's most comfortable good looking dress shirt. It is like wearing a t-shirt, incredible comfort.

We makes this happen by using high-end double 60 compact yarn, and a soft treatment. This gives the shirt a luxurious out-view and silky touch. Also, when using high quality yarn in a knitted fabric, you get a natural non-iron performance, so you simply wash it, hang dry it and wear it.

We have strong confident in this new and innovative way of making fine-shirts. And by this we are looking forward to develop more colors and patterns to the knitted program. Enjoy!

TECHNICAL PARKA 2990201 ♂ TECHNICAL PARKA WOMAN 2990203 ♀

The popularity of our technical car coat, and the good test reports, made it necessary for us to make a hooded version. And so was the parka born. It has the same technical performances as the car-coat, but we made it with a bit more bold attitude of a "big city-parka". Outside front pockets, long sloping tail in the back and more straight fit. The way you would want to wear it, providing you with the right feeling of style, luxury and versatility in any given day or occasion.

The main Technical features are 360 degree stretch, thin Primaloft-Silver insulation, water and wind proof. This highly technical, extreme lightweight parka is perfect for usage in the -15°C To +15°C temperature range.
